01 THE MARK

A HERALDIC COIN WITH A TEMPLE-SERVER AT ITS HEART

The Olympus is a private server presented as the house of the gods. Its mark is an ancient coin: a temple stands on Mount Olympus, and the temple is the server.

PEDIMENT	Zeus' thunderbolt — the authority of the master host.
FRIEZE	Triglyphs that are ventilation slots.
COLUMNS	Fluted shafts that read as drive bays; rack units with status lights between them.
CENTRAL BAY	The god of the service. On the master, more servers.
PLINTH	Mount Olympus, with THE OLYMPUS cut into it, rising from engraved clouds — theolympus.cloud.
MEDALLION	The logo slot, resting on the clouds.
BORDER	A Greek key and a bead-and-reel in the house's own rhythm.

02 CONSTRUCTION

MEASURED IN UNITS OF THE 512 ARTBOARD; RIM Ø 504

R 252	RIM
R 243	GREEK KEY
R 214.5	INNER RULE
R 208	BEAD-AND-REEL
R 203	FIELD

Everything is constructed on a 512-unit square with its centre at (256, 256). The rim is a circle of radius 252; the bands of the border step inwards from it, and the field holds the temple. The geometry is generated from code, so the same configuration always gives the same mark.

03 TIERS AND EDITIONS

ONE MARK, THREE SIZES; FINE FOR SCREENS, PRINT FOR MAKING

CREST · FINE

From 64 px on screen; large print

CREST · PRINT

Engraving, embossing, 3D printing — from Ø 67 mm on a 0.4 mm nozzle

EMBLEM

64–256 px: app icons, headers

SEAL

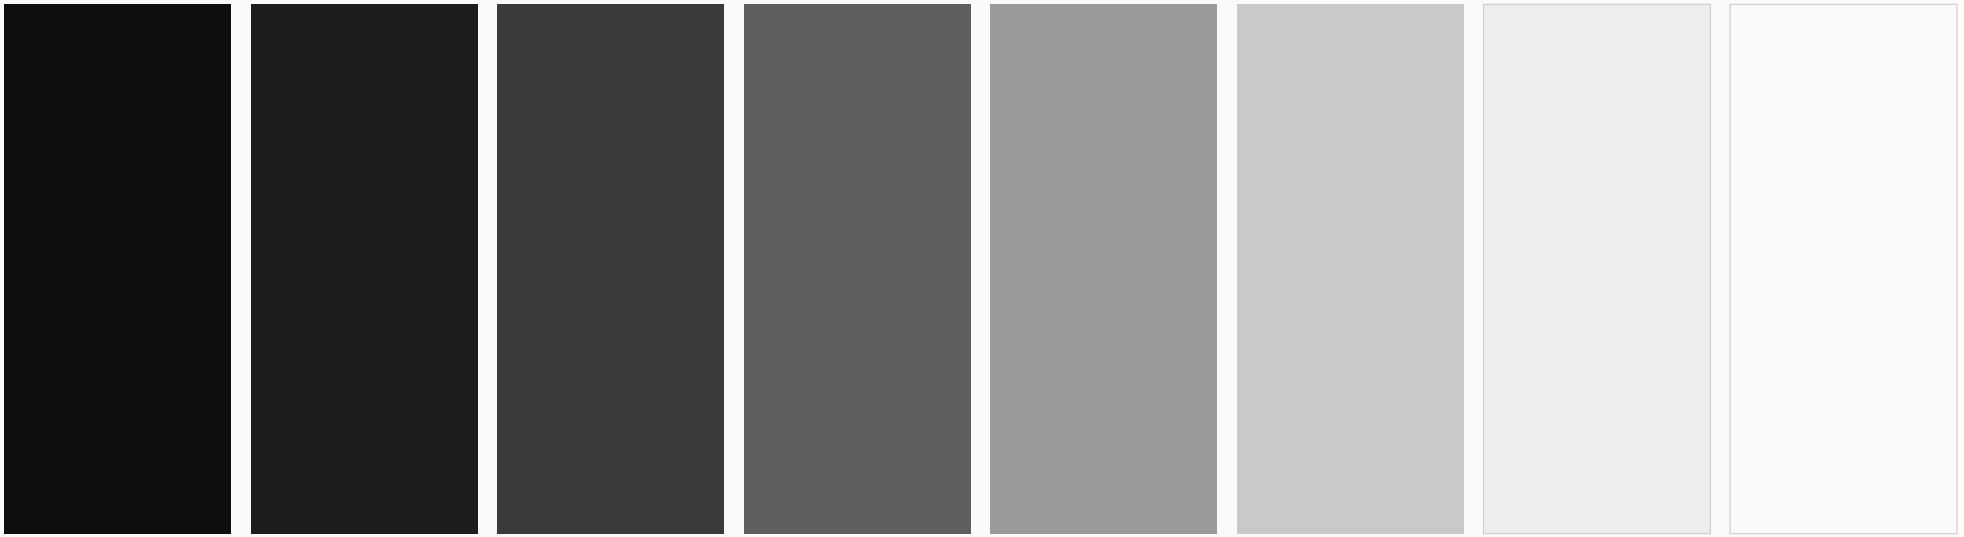

48 px and below: favicons, tabs

THE SEAL, SMALL

04 PALETTE

GRAYSCALE ONLY — EVERY VALUE IS A NEUTRAL GRAY

OBSIDIAN	CHARCOAL	GRAPHITE	SLATE	SILVER	ASH	MARBLE	PAPER
#0E0E0E	#1C1C1C	#3A3A3A	#5E5E5E	#9A9A9A	#C9C9C9	#EDEDED	#FAFAFA

No hue anywhere: no gold, no blue, no accent colour. Charcoal on paper and marble on obsidian are the two main pairings; the grays between are for secondary ink, hairlines and captions. Marble is never a colour — it is a material, rendered or printed.

05 TYPOGRAPHY

CINZEL FOR THE HOUSE; JOST FOR THE WORK

CINZEL

THE OLYMPUS

ABCDEFGHIJKLM NOPQRSTUVWXYZ
0123456789

Cinzel Bold sets the name in the plinth and the service names in lockups; Cinzel Black, emboldened, carries the print editions. Inscriptions are set in capitals with generous tracking, as if cut in stone.

JOST

THE OLYMPUS · APOLLO

Abcdefghijklmnopqrstuvwxyz

Jost is the companion: lockup captions in tracked capitals, and running text like this. Both are open fonts (SIL OFL); every file outlines them, so nothing depends on an installed font.

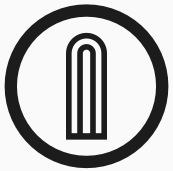

06 THE PANTHEON

EVERY KIND OF SERVICE HAS A GOD IN THE CENTRAL BAY

ATLAS

Celestial sphere on a pillar. Hypervisors, virtual machines, clusters.

IRIS

Rainbow arches. Routing, DNS, DHCP, switching, connectivity.

HERMES

Kerykeion — the herald's winged staff. Reverse proxies, gateways, application routing.

HADES

Key. NAS, volumes, object stores, file servers.

KRONOS

Hourglass. Backups, snapshots, replication, archives.

ARGUS

Watching eyes. Metrics, logs, alerting, uptime.

ATHENA

Owl. VPN, firewalls, identity, secrets, access.

NEPHELE

Clouds. Private cloud, file sync, collaboration.

APOLLO

Lyre. Streaming, music, photos, books.

HESTIA

Flame on the household altar. Home automation, IoT.

POSEIDON

Trident. Container runtimes, orchestration, registries.

ARACHNE

Web. Websites, web apps, wikis, dashboards.

NIKE

Victor's wreath. Game servers in general.

HEPHAESTUS

Hammer and anvil. Crafting and building games (e.g. Minecraft).

ARES

Crested helmet. Competitive and dedicated multiplayer servers.

DIONYSUS

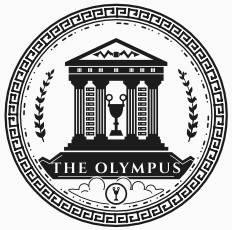

Kantharos — the cup of the feast. Game communities, voice, chat, events.

08 LOCKUPS

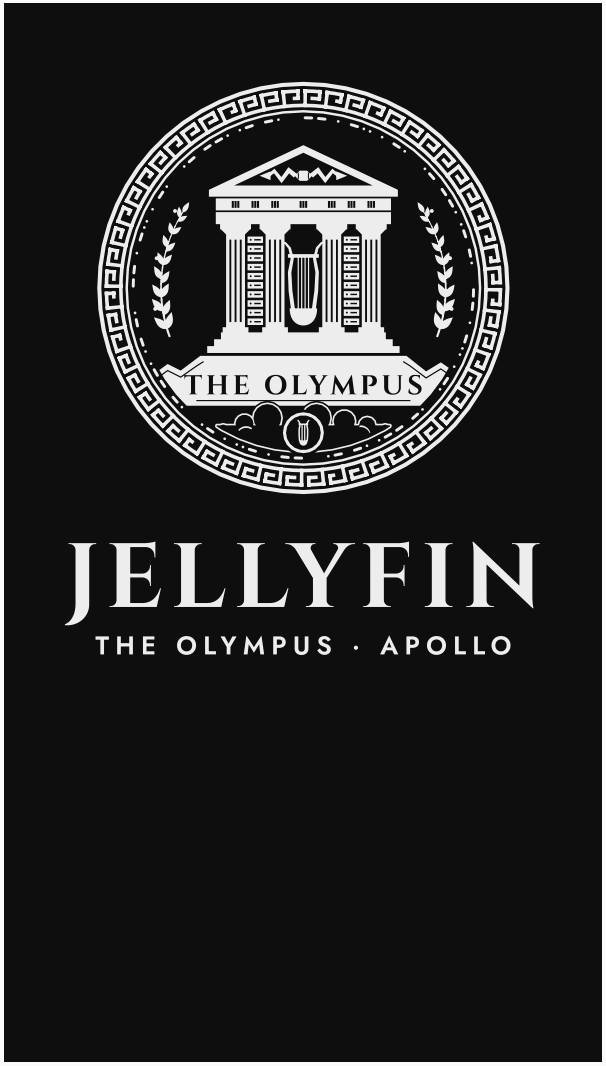

THE CREST NEVER CARRIES A SERVICE'S NAME — THE LOCKUP DOES

JELLYFIN

THE OLYMPUS · APOLLO

Horizontal for headers and nameplates, vertical for squares and posters. The name is Cinzel Bold; the caption, in tracked Jost, names the house and the patron.

09 CLEAR SPACE AND SIZES

ROOM TO BREATHE; NEVER SMALLER THAN IT CAN BE READ

CLEAR SPACE: 1/6 OF THE DIAMETER ON EVERY SIDE

Crest, fine — screen	**64 px**
Crest, print — FDM, 0.4 mm nozzle	**Ø 67 mm**
Crest — sticker, fine lines	**Ø 201 mm**
Crest — sticker, print edition	**Ø 20 mm**
Emblem — screen	**64 px**
Seal — screen	**16 px**
Seal — sticker	**Ø 17 mm**
God's seal — FDM token	**Ø 32 mm**

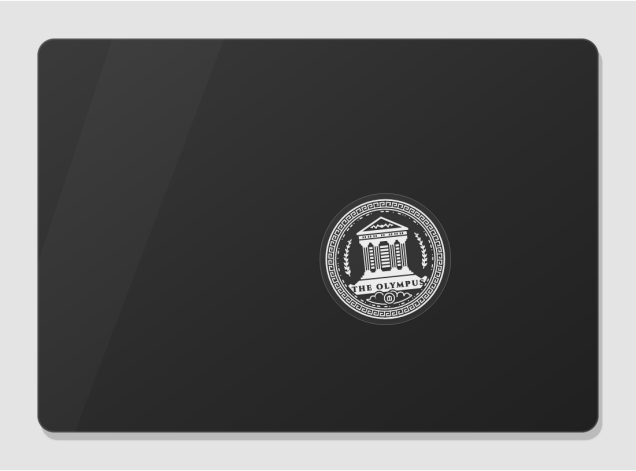

10 MADE OBJECTS

STICKERS, MEDALLIONS AND A MARBLE LITHOPHANE — FILES, NOT MOCKUPS

TWO-COLOUR MEDALLION

Plate and relief as two parts; validated STL and 3MF.

STICKER ON A LAPTOP

Die-cut, clear vinyl with a white underbase; the scene is a mockup.

WHITE MARBLE

A presentation render: the veining is seeded, identical every time.

Every object is generated from the same geometry as the logos, by the Atelier or the command line, and checked before it is written: meshes are closed and manifold, stickers carry their cut path on its own layer.
